Professional Summary

- **Full Stack Developer** with **3+** years of experience building and shipping production-grade platforms using **Next.js**, **TypeScript**, and **PostgreSQL** in startup and high-ownership environments.
- Proven ability to **own products end-to-end**, from **database architecture** and **payment infrastructure** to **UX/UI** and **production deployment**, as sole engineer on a platform that scaled **9,900% in 6 months**.
- Deep production experience with **Stripe Connect** (multi-currency, dual-market payouts), third-party APIs, and scalable backend architectures.

Technical Skills

- | | | | |
|--------------|------------------|----------|--------------|
| • Next.js | • Node.js | • Docker | • JavaScript |
| • React.js | • PostgreSQL | • AWS | • Python |
| • TypeScript | • Stripe Connect | • Vercel | • Figma |

Experience

QommAdd

August 2025 – June 2026

Founding Full Stack Engineer | *Next.js, TypeScript, PostgreSQL, Stripe Connect, Vercel*

Remote

- Architected and shipped the company's core web platform as **sole engineer**, scaling the database and infrastructure from **2 to 200+ organizations (9,900% growth) in 6 months**.
- Built a **Stripe Connect payments system** supporting dual US/MX marketplace accounts, migrating to **Direct Charges** and integrating **Stripe Tax** across multi-state and multi-country jurisdictions.
- Led a **feature-based architecture refactor** (UI → Controller → Service → Cache → Repo → DB), improving code maintainability and onboarding speed for future contributors.
- Owned UX/UI, mobile-first design, and internal admin tooling, collaborating directly with founders to shape product and technical strategy.

Vertikal X

March 2025 – August 2025

Full Stack Developer Lead | *Next.js, TypeScript, Nest.js, PostgreSQL, AWS*

Remote

- Led development of full stack features integrating **AI-driven performance scoring models** into the platform.
- Designed and implemented integrations with **Instagram and Strava APIs** to automate athlete data ingestion.
- Rebuilt core UI components with a new design system, **reducing frontend bugs by 40%**.
- Improved team velocity by **50%** through agile workflows, pair programming, and design-first development.
- Acted as technical lead for a 6-person team, conducting code reviews and mentoring junior developers.

Kellanova

April 2024 – December 2024

Data Analyst Intern | *Python, SQL, AWS*

Remote

- Built automated **Python scripts** to validate data quality and streamline data workflows at scale.
- Used **AWS** to retrieve, process, and manage large-scale production datasets with **SQL**.

Projects

ShareBook | *Next.js, TypeScript, Tailwind, Appwrite, Python, PyTorch*

January 2025 – August 2025

- Built an **AI-powered book-sharing platform** delivering personalized recommendations via a custom ML model.
- Designed and implemented social features for managing collections, friends, and reading status.
- Integrated the **Google Books API**, reducing search time by **50%** and improving overall UX.

Education

Tecnológico de Monterrey

B.S. in Computer Science and Technology

June 2025

GPA: 96/100
